## IMPORTANT NOTE：

We make every effort to keep our allergen list as updated and accurate as possible，but we cannot guarantee $100 \%$ accuracy as suppliers and manufacturers sometimes make last minute substitutions due to supply chain management issues and other unforeseen scenarios．

Please use caution if you have a severe sensitivity to any allergen！

We openly handle several allergens throughout our restaurant．We make dough from scratch here on site every day，and while we do offer a gluten free crust alternative that is prepared for us in a gluten free facility，all of our pizzas are topped and baked using shared utensils and equipment．Other ingredient allergens directly handled in our restaurant include dairy products，such as cheese， eggs，tree nuts（including walnuts and almonds）and others．Some ingredients may either contain or come in contact with other allergens such as soy and peanuts， although we do not directly handle either of these ingredients or use them as toppings for any products． Many of our suppliers handle allergens in a common facility with ingredients they supply for us．
